

## AGENDA

0830 Coffee and registration

### Opening session – Nanotechnology into the future

- |      |   |   |
|------|---|---|
| 0930 | Welcome                                     | <b>Claire Skentelbery</b> . Director General, Nanotechnology Industries Association         |
| 0940 | Nano in action: Textiles                    | <b>Vera Chetty</b> . Chief Technical Manager, Nonwovens Innovation & Research Institute Ltd |
| 1000 | Nano in Europe: EU vision and strategy      | <b>Carlos Eduardo Lima da Cunha</b> . Policy Officer, European Commission                   |
| 1020 | Nano in society: Part of the nano story     | <b>Hilary Sutcliffe</b> . Director, SocietyInside   |
| 1040 | Nano in business: Enabling nano in products | <b>Gregor Schneider</b> . Head of Department, RAS AG  |
| 1100 | Coffee                                      |   |

### Session 2 – Regulation and standards priorities

- |      |   |   |
|------|---|---|
| 1130 | A view from the regulator   | <b>Abdelqader Sumrein</b> . Scientific Officer, European Union Observatory for Nanomaterials (EUON) |
| 1155 | A view from industry  | <b>Kai Paul</b> . Consultant, Blue Frog Scientific Limited  |
| 1220 | Nano-standards: Evolution and revolution                                  | <b>Denis Koltsov</b> . Director, BREC Solutions   |
| 1245 | Global Regulatory Working Group – NIA Member priorities within regulation | <b>David Carlander</b> . Director of Regulatory Affairs, NIA  |
| 1315 | Lunch   |   |

### Session 3 – What goes around: Nano in waste

*With nano-specific text emerging within regulations, waste is likely to become a focus for the future. This session brings together research and industrial perspectives to discuss potential long-term impacts and a position for industry within policy and regulation.*

- |      |   |   |
|------|---|---|
| 1415 | Overview of nanowaste landscape for Europe  | <b>Tobias Walser</b> . Managing Director, Vereala   |
| 1435 | Perspectives from research - the nanoFASE project.  | <b>Ralf Kägi</b> . Head, Particle Laboratory, Swiss Federal Institute of Aquatic Science and Technology |
| 1500 | Perspectives from industry  | <b>NIA Members</b>  |
| 1520 | Regulatory frameworks around waste. Grouping of nanoforms from waste – the great equaliser. | <b>David Carlander</b> . Director of Regulatory Affairs, NIA  |
| 1540 | Panel and audience discussion   |   |
| 1630 | Close and cocktails   |   |
